

The NLP Research and Recognition Project

A possible breakthrough moment in the history of NLP and our organization:

Real scientific research in the application of NLP to human health and well-being.

Research that will legitimize NLP so that its great power for health and well-being can be used throughout the world.

IASH is looking at undertaking this research. A serious proposal by a highly qualified individual will be presented to us at our [conference](#), now only a few weeks away.

This will be the most important business meeting in the history of IASH. If we (the membership of IASH) decide as a group to undertake this project, it will mean new challenges and opportunities. It will also be a major commitment and require a great deal of work by many participants.

The developer of the proposal is Dr. Frank Bourke, Ph D. Dr. Bourke has a distinguished and impressive background in research and development and many years of experience as a practitioner of NLP. We think he is well qualified to spearhead the project he is proposing.

IF YOU ARE COMING TO THE CONFERENCE:

- Please plan to attend the presentation on Friday evening, Sept. 29, at which time you will hear about the state of IASH. And a proposal entitled [The NLP Research and Recognition Project](#) will be presented and discussed.
- Please plan to attend the Annual IASH Business Meeting on Saturday, Sept 30, where perhaps the most significant discussion about IASH in years will take place, and members will vote on issues determining the future direction of IASH.

Please read [the proposal](#) on the web site and start thinking about how you can contribute to this exciting new project.

- You might also want to attend Steve Andreas' proposal for the [Imaginal Disc Group](#) on Saturday evening.

IF YOU ARE NOT COMING TO THE CONFERENCE: (We'll miss you!)

Please go to the web site and read [the proposal](#). If you have a comment to make or a contribution to offer, please e-mail us BEFORE the conference. Send your comments to research@nlpish.org

Finally, special room rates may still be available at The Red Roof Inn across the street from the conference. See the web site for details. And for those who live in the Bay Area, remember, you can register for the conference on site, the first morning of the conference. Everyone is welcome.
